Using a Platinum stairlift is very simple.

Unfold the arms and the seat pad, put the footplate down and your stairlift is ready to use. The digital diagnostic display will display 'Platinum'.

1

2

Sit on the revolutionary Ergo chair that can be fully adjusted to ensure the perfect fit for you at installation.

**3**

To operate the stairlift simply use the ergonomic joystick in the end of the arm by lightly pressing the joystick in the direction you wish to travel.

**4**

At the top you can swivel the chair onto the landing to allow safe transfer on and off the stairlift.

**5**

When not in use the stairlift can be parked away on the stairs to leave space for other family members.

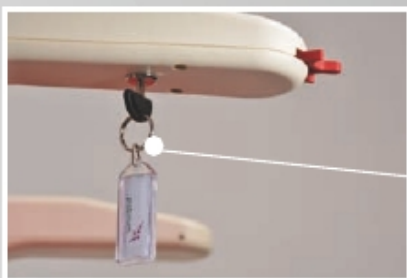

Discover the unique features.

Ergonomic joystick

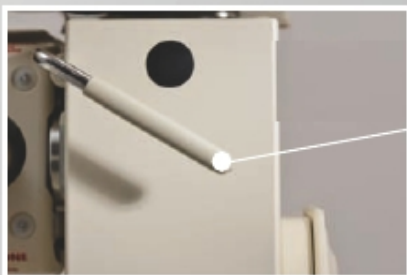

Can be used as a button or lever to make the stairlift easy to operate in a natural and comfortable position even with limited mobility.

Unique
worldwide

Security key switch

under the armrest, to prevent unauthorized use of your stairlift.

Independent lever linked footrest raiser

to open and close the footrest easily when you need it without having to bend down (powered option also available). Also allows easy transfer for wheelchair users.

ERGO plus seat

designed to optimize the position of the legs when seated.

Unique
worldwide

Digital diagnostic display

built into the armrest, to check all the information and diagnostics about you stairlift in real time.

Unique
Worldwide

Retractable reel seat belt

to provide additional security to move safely.

Seat swivel lever

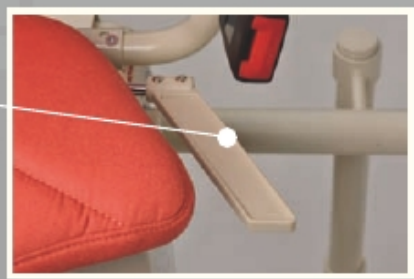

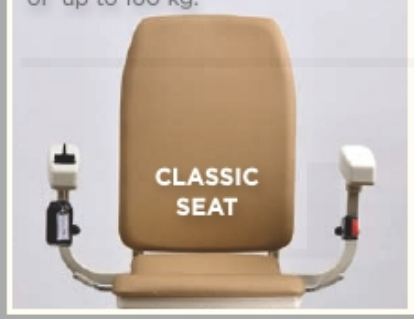

To turn you at the top of the stairs simply manually lift the lever up. Powered swivel option also available which works off the ergonomic joystick.

Safety edge sensitivity

These would immediately stop the stairlift in the event of any obstructions on the stairs during travel.

HD Classic seat

An option unique to the Platinum Curve designed with a user weight of up to 160 kg.

Platinum - Designed with you in mind

Open the footrest
This is easy and independent from the armrest.

Remotes controls

Two come with every stairlift, allowing you to call the stairlift to where you need it.

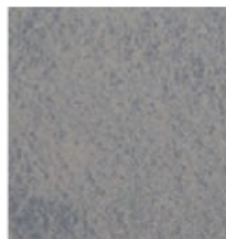

Automatic swivel
to rotate at the top of the stairs unaided.

and easy to use.

- Start delay to prevent accidental operation
- Choice of colours. Change the upholstery and look new in seconds.
- Battery operated so works in the event of a power cut
- User weight capacity up to 160 kg on curve and 140 kg on straight.
